	<b>DESOLVER - CLINKER PRO</b> <small>cleaning</small> clinker, ceramic and stone tiles	

## APPLICATION.

**DESOLVER - CLINKER PRO** is an active agent intended for cleaning clinker, ceramic and stone tiles. Desolver - Clinker PRO is used to remove impurities, dirt and deposits from all types of cement and lime mortars, salt efflorescence, rust stains, limestone, etc. The preparation can be used inside and outside the building.

## HOW TO USE

The product should be applied to the surface to be cleaned; in the case of heavy and old dirt, wait a few minutes and, if necessary, support the process mechanically, and then rinse thoroughly with water. It is best to use a brush or a sharp sponge to apply the product and clean the dirt.

Depending on the substrate and the intensity and type of dirt, the agent should be used undiluted or as a mixture with water according to the instructions in the table:

<b>In undiluted form</b>	<b>Intensive cement and cement mortar stains</b>
<b>1 part of the preparation: 3-5 parts of water</b>	<b>Cement and cement mortar stains</b>
<b>1 part of the preparation: 5-10 parts of water</b>	<b>Remains of lime mortars and salt efflorescence</b>
<b>1 part of the preparation: 10-15 parts of water</b>	<b>Rust and water stains (limestone)</b>

Before applying the agent, it is recommended to perform a cleaning test. Wash tools with clean water immediately after use.

## TECHNICAL DATA.

<b>Substrate and ambient temperature</b>	<b>From +5°C to +40°C</b>
<b>Density</b>	<b>1.04+/-0.02 kg/dm<sup>3</sup></b>
<b>Reaction</b>	<b>Sour</b>

## PACKAGING.

Plastic bottles and canisters with a capacity of 1 l, 5 l, 10 l, 20 l or other upon agreement with the customer.

## STORAGE AND TRANSPORT.

Transport and store in tightly closed manufacturer's packaging at a temperature of +5°C to +40°C, in a place not exposed to sunlight. Shelf life 36 months from the date of production.

## SECURITY.

EUH210 Safety data sheet available upon request

P102 Keep out of reach of children.

P234 Keep only in original container.

The above information and recommendations are provided by the Manufacturer based on conducted research, tests and experience. The Manufacturer does not guarantee the achievement of an optimal final effect in the event of use not in accordance with the recommendations or storage conditions beyond the Manufacturer's control. The information contained in this document is based on currently available data characterizing the product and the Manufacturer's knowledge. It should be treated only as an aid for safe use, transport and storage of the product. This does not release the user from liability for improper use of the above information.

Prevention:

P262 Do not get in eyes, on skin, or on clothing.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

Response:

P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing.

Rinse skin under running water (or shower).

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if they are there and can be removed easily. Continue rinsing.

Contains: phosphoric acid (V) CAS: 7664-38-2, EC: 231-633-2) max. 8%

The product contains a mixture of surfactants and auxiliary substances: anionic surfactants less than 5%.

NOTE! Product intended for professional use. The manufacturer and distributor are not responsible for damage caused by improper use.
