APPLICATION.

GUARDBRUK is a professional agent for the maintenance and protection of paving stones, old pavements and concrete elements. The preparation perfectly protects the surface, highlights its color and protects the color from fading. **GUARDBRUK** has excellent resistance to alkalis, high adhesion to any type of substrate and high resistance to abrasion.

HOW TO USE

- **Preparation of the substrate:** The substrate should be suitably strong, degreased and cleaned of dust, dirt, lime, stains and biological efflorescence (for degreasing and removing dirt, the manufacturer recommends a product called Desolver PRO, Desolver Klinkier PRO or Polisol PRO). The entire surface intended for application must be thoroughly dried. Surfaces made of fresh paving stones should be impregnated only after 2-3 weeks from installation.
- **Preparation of the agent:** **GUARDBRUK** is sold ready for direct application. In the case of less absorbent substrates, the preparation can be diluted with water in the ratio of 1 part preparation to 3 parts water.
- **Application and drying:** Apply the preparation with a brush, paint roller or spray at an ambient temperature of +5°C to +30°C. It is recommended to apply two layers, the second layer should be applied before the previous one dries. The preparation can also be used for impregnation by immersion. To do this, dilute it with water in the following ratio: 1 part of the preparation to 4.5 parts of water.

TECHNICAL DATA.

Wear	From 0.1 to 0.3 L per 1 m ² (depending on the type of surface and the number of layers applied)
Density	1.00 +/- 0.05 kg/dm ³
Ambient, preparation and substrate temperature	From +5°C to +30°C

PACKAGING.

Plastic bottles and canisters with a capacity of 1 l, 5 l, 10 l, 20 l or other upon agreement with the customer.

STORAGE AND TRANSPORT.

Transport and store in tightly closed manufacturer's packaging at a temperature of +5°C to +30°C, in a place not exposed to sunlight. Shelf life 24 months from the date of production.

SECURITY.

May cause an allergic skin reaction.

Keep out of reach of children.

Avoid breathing dust/fume/gas/mist/vapours/spray.

Wear protective gloves/protective clothing/eye protection/face protection.

IF ON SKIN: Wash with plenty of water.

The above information and recommendations are provided by the Manufacturer based on conducted research, tests and experience. The Manufacturer does not guarantee the achievement of an optimal final effect in the event of use not in accordance with the recommendations or storage conditions beyond the Manufacturer's control. The information contained in this document is based on currently available data characterizing the product and the Manufacturer's knowledge. It should be treated only as an aid for safe use, transport and storage of the product. This does not release the user from liability for improper use of the above information.

If skin irritation or rash occurs: Get medical advice/ attention.

NOTE! Product intended for professional use. The manufacturer and distributor are not responsible for damage caused by improper use.
