APPLICATION.

CHROMOCLEAN is a product designed for the daily care of bathroom fixtures and ceramics. It's especially recommended for cleaning chrome, matte, satin, full-gloss, and PVD-coated surfaces. It removes rust stains, limescale, cosmetics, and soap scum, and prevents new stains from settling. It leaves a protective film, facilitating the removal of dust, such as cosmetic powder. It leaves no streaks and allows for easy, sparkling clean results.

HOW TO USE

Taking all precautions, apply the product to the surface to be cleaned using a spray bottle. Leave for a moment (approximately 1 minute), then wipe with a wet cloth. Rinse the cleaned surface with water. Allow to dry or gently wipe dry.
