	CHROMOCLEAN PREMIUM For daily care of bathroom fittings and ceramics	

APPLICATION.

A product for the daily care of bathroom fixtures and ceramics. Especially recommended for cleaning matte, satin, full-gloss, and PVD-coated chrome surfaces. It removes deposits and marks from water, limescale, toothpaste, cosmetics, etc. It perfectly cleans ceramic sinks and countertops. It leaves a fast-drying, streak-free protective film.

HOW TO USE

Taking all precautions, apply the product to the surface to be cleaned using a spray bottle. Leave for a moment (approximately 1 minute), then wipe with a wet cloth. Rinse the cleaned surface with water. Allow to dry or gently wipe dry.

TECHNICAL DATA

Physical form	liquid
Color	colorless to slightly yellowish
Smell	characteristic
Density at 20°C	approx. 1.014 g/ml
Water solubility	completely soluble
pH	approx. 3.22

PACKAGING.

Plastic canisters with a capacity of 0.25 L, 0.5 L, 5 L, 10 L, 20 L or other upon agreement with the customer.

STORAGE AND TRANSPORT.

ADR/RID: Not subject to ADR restrictions

Transport and store in tightly sealed manufacturer's packaging at a temperature between +15°C and +30°C, away from direct sunlight. Store in dry, well-ventilated rooms. Shelf life: 24 months from the date of production. Protect the product from freezing!

SECURITY.

When using this product, follow basic occupational health and safety regulations. Keep this product out of the reach of children.

Irritant. Causes eye irritation. When using this product, wear personal protective equipment such as protective clothing, gloves, goggles, and, if necessary (e.g., insufficient ventilation), also a respiratory protective device. Use this product only in well-ventilated areas. Wash your hands thoroughly with soap and water during and immediately after use. Do not eat, drink, or smoke while using this product. Avoid contact with eyes and skin. Do not inhale spray.

In case of eye contamination, immediately flush eyes with water, continuing to rinse with wide-open eyelids. Do not flush eyes with a strong stream of water – there is a risk of mechanical damage to the cornea. Consult a doctor.

The Manufacturer provides the above information and recommendations based on research, trials, and experience. The Manufacturer does not guarantee optimal results if used inconsistently with the recommendations or if storage conditions are beyond the Manufacturer's control. The information contained in this document is based on currently available data characterizing the product and the Manufacturer's knowledge. It should be considered only as an aid to the safe use, transport, and storage of the product. It does not release the user from responsibility for misuse of the above information.

In case of inhalation, remove the affected person to fresh air and keep them calm. Seek medical advice, especially if any disturbing symptoms occur.

Wash contaminated skin with plenty of water. If irritation persists, consult a physician.

If swallowed, drink plenty of water. Do not induce vomiting. Never give anything to drink to an unconscious person. Consult a doctor.

Before use, read the label on the packaging or refer to the product safety data sheet.

Attention:

The recommendations and guidelines contained in this document are based on our experience and practice. Due to the variety of materials and substrates, as well as the multitude of possible applications, which are beyond our control, we cannot assume any liability for the results obtained. In all cases, a trial run is recommended.

The product can be safely used to clean surfaces that come into contact with food, provided that the manufacturer's instructions for rinsing and drying the surface are followed.
